This class will help you build a strong foundation for a lifelong practice. Let's get started!

Dynamic Vinyasa Flow: An intermediate to advanced class, recommended for those with prior yoga experience who are physically active. It is an energetic form of vinyasa flow based on the Ashtanga Yoga tradition, designed to improve overall strength, fluidity, cardiovascular conditioning, focus and balance. Some postures will be repeated or held longer to help strengthen your core and generate heat. Challenge your body and your mind!

Slow Vinyasa Flow: This is an intermediate level of yoga characterized by a continuous, progressive sequence of poses linked together by the breath, paced slowly enough to focus on correct alignment and form. Integrating the principles of Iyengar Yoga (alignment) with Ashtanga Yoga (dynamic) you will be sure to build strength, fluidity and focus while improving cardiovascular conditioning. Prior yoga experience is recommended.

Yin/Yang Fusion Flow: Appropriate for beginners to experienced, this class combines seated and standing poses, breath work and meditation. Yin yoga includes deep stretches to increase flexibility and improve circulation in the joints. Yang yoga includes moving from one pose to the next to energize and warm the body, building strength and balance. Beginners will safely learn the basics and modifications while more experienced students can take the postures to deeper levels. Great for after a long, busy day or week!

Yin Yoga (all levels): Bring balance to your workout through deep stretching to gain muscle flexibility and mobility in the joints. Poses will be held for extended periods of time while relaxing and allowing gravity to release the connective tissue resulting in greater muscle movement and range of motion in the joints.
