

Massage Therapy Policy

Client Disclosure

WellStar Health Place requests that each client provide a complete history of all previous and current medical conditions to our massage intake form. The client will complete the form to the best of his/her ability and will not hold Health Place responsible for any conditions not disclosed. Massage therapy services will not be provided until the client completes the intake form. Health Place provides services in a manner that honors the privacy and modesty needs of its clients. A renewal form for health history will be requested each year.

Late Arrivals

We request that you arrive 15 minutes early for your first appointment and shortly before your scheduled time for subsequent appointments. If you are late, your appointment will not be extended to cover your late arrival and you will be responsible for full payment of your appointment.

Cancellation

In the event that a client must cancel an appointment, we require at least a 24-hour notice of cancellation. Any appointments not canceled in accordance with this policy will result in the client being charged full price for his/her massage. Please call the front desk at 770-793-7300 to cancel. Appointments canceled by Health Place due to a therapist illness or emergency will be rescheduled at a mutually convenient time. A no-show, no-call for a missed appointment may result in the refusal of service for future appointments.

Payment Terms and Discount Policy

Payment is due at the time services are rendered. Payment options include cash, check, Visa, Mastercard, and Health Place gift certificates. There are no discounts with an upgrade of services. No double discounts accepted. Tips appreciated but not expected.

Etiquette

When making your appointment, please let the front desk know if you need extra assistance in preparation for your massage or have special circumstances your therapist will need to be aware of. Do not get a massage if you are sick with a fever or other contagious illness. Communicate with your therapist regarding depth of pressure, talking during the massage, or if you do not want certain body parts touched (i.e. head, face, glutes, feet etc.). Let the therapist know if you have had any change in your medical status since your last massage. Be upfront about any medical conditions in order to receive the best service possible. Please shower or freshen up before your massage. Wipes are provided in the massage rooms as necessary. Inappropriate behavior will not be tolerated.

Post-Massage Care

Drink plenty of fluids after your massage. Experiencing stiffness or pain for 24-72 hours after a massage can be a normal reaction depending on the type of massage received. Get plenty of rest to prolong the calm feeling of wellbeing. It is safe to avoid sitting in the hot tub, steam room, or sauna immediately after your massage.

I understand and agree to the terms listed above.
